Professional Summary

Motivated and detail-oriented Second year Computer Engineering student at International Institute of Information Technology, Pune.

Strong foundation in programming with proficiency in C, C++, and Python.

Eager to apply technical skills and learn in a dynamic environment.

Experience

AI & Data Analytics Intern — Machine Learning

Edunet Foundation | AICTE Virtual Internship Program (in collaboration with Shell)

July 2025 – August 2025

- Worked on Electric Vehicle (EV) Demand Prediction using Machine Learning models.
- Performed data preprocessing, cleaning, and feature engineering using Python, Pandas, and NumPy.
- Built and evaluated ML models using Linear Regression, Random Forest
- Used Jupyter Notebook for developing and documenting the solution.
- Implemented visualizations and insights to understand market trends and prediction accuracy.
- Strengthened analytical thinking, problem-solving, and independent learning during remote work.

Education

Bachelor of Computer Engineering

International Institute of Information Technology, Pune

Currently pursuing: Second Year, Grade : 9.00 CGPA

Higher Secondary (12th Standard)

Percentage: 81.50%

Secondary School (10th Standard)

Percentage: 91.60%

Skills

Programming Languages: C, C++, Python

Data Analytics: Pandas, NumPy, Data visualization

Tools & Platforms: Jupyter Notebook, VS Code, Git & GitHub

Core Computer Science: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA – learning)

Operating Systems: Windows, Linux (basic)

Soft Skills: Problem-solving, Self-learning, Team collaboration, Time management
